

Why supplement?

The question is why not? Really do you believe that the food you eat on a daily basis has the necessary nutrition your body needs? With how much processed food we each eat on a daily basis it's hard to get the necessary daily dose of vitamins and amino acids with out eating tens of thousands of calories. For this purpose supplementing is the key in strengthening your immune system, your mental state, your emotional state, muscle recovery, fat loss, natural anti inflammatory, tissue development, and slows down cell degeneration. So again why would you not supplement? Supplementing with dub products will take you to a level you thought you could never achieve. At dub nutrition we are a different kind of company for it's our purpose to make you a better you!!!

Burner

dub burner is the most unique fat burner in the market place because our product was designed to help increase blood flow through your circulatory system. By doing this you provide a greater nutrient flow to the vital organs of your body and to your muscle tissue. We have added specific amino acids to protect your muscle so that with exercise and eating 5 to 6 times per day you will lose weight but the weight that you will lose will be body fat and body fat takes up 5 times the space as muscle. dub burner is truly the most unique fat burner available. We recommend that this product not be taken on an empty stomach. We also recommend taking this product in conjunction with Muscle and Youth for amazing results.

Muscle

dub muscles is designed for men and women!! How often do you go to the gym and have an intense work out and as you leave you say “ Man I'm going to be so sore tomorrow” then come to find out you are sore for 2 more days following that. If I can say anything about our muscle formula is that you recover so quick. Every day I push myself to extremes in the gym and I just don't get sore and that's because our unique formula and our high levels of amino acids. During your work outs whether it be contractive exercise, yoga, cycling, running, pilates, or just being active, dub muscle is for you because you oxygenate so well. We currently have professional athletes and amateur athletes breaking personal bests because of the fast recovery and oxygenation levels experienced while taking “muscle”. For best results take this product with “dub burner” and “dub youth” and you will experience results you never thought possible!!

Youth

dub youth is our most extensive and I believe the most advanced anti aging formula to ever be invented with the help of amazing scientific technology and state of art manufacturing. We at dub have been amazed at the results of our youth it focuses specifically on reducing inflammation in the body and providing specific nutrient to the vital organs of the body. For amazing results youth should and needs to be taken in conjunction with “dub muscle” and “dub burner”.

Energy

dub energy is the best tasting energy shot available in the market place. There are 0 Calories and you will experience several hours of sustained energy. What a convenient way to have energy in a 2 oz shot. Give dub energy a shot and you will be addicted just ask our customers who continue to order on auto ship every month “they love it”.

To recap our amazing supplements we have designed them with all ages and all demographics in mind. All our products have been formulated to increase circulation and reduce inflammation. This is why we are so unique “Circulation sustains our life and inflammation restricts circulation” Dub Nutrition is the resolution to a better “You”. As President and Founder of Dub Nutrition I invite you to take the dub Challenge and be on our supplements for 90 days. I am excited to hear of your own personal success story. Please feel free to share your experience via email at customerservice@dubnutrition.com key word “dub challenge”. I am excited for every one who experiences what I have on these amazing supplements. – Sincerely, Jeremy Wardle President&Founder
